## IN THE NEWS

### Membership Update

The membership committee would like to announce that our membership is continuing to grow. We now stand at 56 unique members and are receiving more inquires on a weekly basis. We have assembled a welcome packet that all current and new members should receive. This packet contains a lot of great information on our local chapter as well as some useful literature on the national organization. A bumper sticker is also contained in the packet that shows everyone that you are a supporter of the ICPI AZ chapter.

The committee is also growing. With as many new memberships we are getting as well as the inquires, we added some more spots to assist us in managing all the inquires. Carl Huffman is now excited to help Greg Smith out and continue working with recruitment and welcoming the new members.

### From the President:

It's been two years since we started the Arizona Chapter and we have accomplished many things. Now it is time for some fresh input. We have many members who are the top people in the industry but who do not participate in the Chapter. We are voting on the composition of the Board at our August meeting and I would encourage all of you to consider investing more time in the Chapter. You can make a difference and we need to hear your voices.

John Traynor
